

# Indonesia's Direction

In the run-up to presidential elections next year, three-quarters (74%) of young people feel that "Indonesia needs to change if it is to develop in the right way."

Indonesia needs to change

**74%**

Indonesia on the right track

**18%**

Young people are generally optimistic about life in five years' time. If the "don't knows" were to split evenly, the pessimists would then amount to about one-third of the Gen-I group.
